PITHY PARAGRAPHS.

No rain, no coal, is getting to be the situation in both the Anthracite and the soft coal regions.

The foreign-speaking miner will mine three-fourths of the Anthracite coal in two years from now, at the present rate of displacement of other classes of miners.

Low water caused a better shut-down of the Anthracite coal mines than an agreement to restrict.

For the year ending March 31, 1906, the total production of coal in India was 2,725,000 tons, and the steady increase, which has characterized this industry since the first, is a hopeful promise of confidence.

What is said to be the largest block of coal ever mined was taken from mine No. 3 at Cledon, Washington. It is said to weigh 41,000 pounds.

About 1,350,000 tons is the annual Anthracite coal consumption at Chicago, Ill. The shipping business there was 450,000 tons last year against 680,000 tons the year preceding.

There seems to be a necessity for coalition in the coal trade, in order to decrease expenses, but though there is a disposition to form alliances of business interests, there is no attempt to concentrate so far as to approach a monopoly of exact exportation prices. Coal is worth its value; miners should be paid a certain definite and remunerative wage, transportation companies a fair rate for carrying it to market, and the jobber a living profit for handling it. But when competition gets crazy, no regard is paid to prices and it is disposed of for its tonnage value producing distress both to operator and miner. Such a course is puerile and suicidal.

ST. BERNARD COAL TUPPLE ON TENNESSEE RIVER, AT PADUCAH, KY., FOR SUPPLYING STEAMBOATS.

Famous No. 9 Coal, for all uses, from Earlington, Diamond and St. Charles Mines. Only Vibrating Screens and Picking Tables used. **THE BEST SELECTED COAL IN THE MARKET.**

CRUSHED COKE FOR BASE BURNERS AND FURNACES.

Why buy High-priced Anthracite Coal, when you can get St. BERNARD CRUSHED COKE for a much less price? One ton of the Crushed Coke will do the same work as one ton of the best Anthracite Coal. **ASK YOUR DEALER FOR IT, AND SAVE MONEY.**

SOMETHING WORTH KNOWING.

Under the statutes of Ohio, which require the operator of a coal mine to keep the same free from gas, and to have the working places examined every morning with a safety lamp before the workmen are allowed to enter, and give cause of action to a person injured for direct damage occasioned by any violation or willful failure to comply with the requirements of the statute, an employee cannot maintain an action against his employer for an injury following such violation unless at the time he was injured he was in the exercise of due care.

In an action for injuries to an employee of Indiana, caused by defects in the roof of a coal mine, statements as to the condition of the roof, made by persons not connected with the mining company, are inadmissible.

The mine boss of Colorado, is an individual so designated by the statute, who must be employed by the mine owner, and put in charge with reference to its safety and its security. He has the entire supervision of the whole system of the ventilation of the mine, likewise of its entries, drifts and rooms, and all machinery and appliances which are used in its operations. He is bound to make his reports regularly to the mine inspector, and is subject to severe penalties for any violation of the statute. Of necessity this would include any failure on his part in the supervision, inspection and care which the statute requires. Miners are likewise given the right to inspect the mine and to demand either in person or by committee, conjointly with the owner or otherwise, as they may choose, and to take such steps as their prudence may dictate to secure their own safety and prevent accidents. And a right of action is also given to certain designated persons in case they sustain damage by reason of any failure to comply with the provisions of the statute.

Thousands testify to the wonderful results of Dr. Sawyer's Urticaria Ointment, and removing the debilitating and broken down condition. St. Bernard Drug Store.

Just what proportions the diphtheria scourge will assume, remains to be seen. The authorities are taking every precaution to prevent the spread of the disease, the infection being as yet confined to the vicinity of the M. E. Church, South. At this writing, the case with two deaths, have been reported. There is, necessarily, a flutter of excitement throughout the community. However, let us trust in the Lord, and at the same time "keep our powder dry."
